

Jill Faudree
Department of Mathematics and Statistics
University of Alaska Fairbanks
Office: 907-458-9402
jrfaudree@alaska.edu

Research Interests:

Graph Theory, especially Structural Graph Theory, Path and Cycle Structures in Graphs, Hamiltonicity, Forbidden Subgraphs, Extremal Graph Theory, Highly Symmetric Configurations

Education:

August 1998 PhD in Mathematics
Emory University, Atlanta GA
May 1993 M.S. in Mathematics
University of Memphis, Memphis TN
May 1991 B.S. in Mathematics
Tulane University, New Orleans LA

Professional Experience:

2017-present **Professor**
Department of Mathematics and Statistics
University of Alaska Fairbanks
2004-2017 **Associate Professor**
Department of Mathematics and Statistics
University of Alaska Fairbanks
1998-2004 **Assistant Professor**
Department of Mathematics and Statistics
University of Alaska Fairbanks
1993-1998 **Teaching Associate**
Department of Mathematics and Computer Science
Emory University
1991-1993 **Teaching Associate**
Department of Mathematical Sciences
University of Memphis

Awards:

2018-2019 CNSM Outstanding Teaching Award
University of Alaska Fairbanks
2013-2014 Bonus for Extraordinary Performance
CNSM, University of Alaska Fairbanks
2007-2008 CNSM Outstanding Teaching Award
University of Alaska Fairbanks
2003-2004 Outstanding Academic Advisor
University of Alaska Fairbanks
1997-1998 Marshall Hall Prize for Distinguished Undergraduate Instruction
Emory University
1993-96,1997-98 Patricia Roberts Harris Fellow
Emory University
1992-1993 Award for Excellence in Teaching
University of Memphis

Research

PEER-REVIEWED JOURNAL PUBLICATIONS

1. J. Faudree, R. Faudree, R. Gould, P. Horn, M. Jacobson, *Degree Sum Conditions and Vertex Dominating Paths* J. Graph Theory 89 (2018), no. 3, 250-265.
2. L. Berman, G. Chappell, J. Faudree, J. Gimbel, C. Hartman, G. Williams, *Graphs with Obstacle Number Greater than One*, J. Graph Algorithms Appl. 21 (2017), no. 6, pp. 1107-1119.
3. J.R. Faudree, R.J. Faudree, R.J. Gould, M.S. Jacobson, B. Thomas, *Saturation Spectrum of Paths and Stars*, Discuss. Math. Graph Theory 37 (2017), no. 3, 811-822.
4. L. Berman, J. Faudree, T. Pisanski *Polycyclic Movable 4-Configurations are Plentiful*, Discrete Comput. Geom. 55 (2016), no. 3, 688-714.
5. L. Berman, G. Chappell, J. Faudree, J. Gimbel, C. Hartman, *Uniquely Tree-Saturated Graphs*, Graphs & Comb., 32 (2016), no. 2, 463-494.
6. G. Chen, J. Faudree, R.J. Faudree, R.J. Gould, M.S. Jacobson, C. Magnant, *Results and Problems on Saturation Numbers for Linear Forests*. Bull. Inst. Combin. Appl. 75 (2015), 29-46.
7. J. Faudree, R. Faudree, *Weak Saturation Numbers of Graphs*, Congr. Numer 217 (2013), 65-81.
8. L. Berman, J. Faudree, *Highly Incident Configurations with Chiral Symmetry*, Discrete Comput. Geom. 49 (2013), no.3, 671-679.
9. K. Amin, J. Faudree, R. Gould, E. Sidorowicz, *On the non-($p - 1$)-partite K_p -free graphs*, Discuss. Math. Graph Theory 33(2013), no. 1, 9-23.
10. J.R. Faudree, R.J. Faudree, Z. Ryjacek, P. Vrana, *On Forbidden Pairs Implying Hamilton Connectedness*, J. Graph Theory 72 (2013), no. 3, 327-345.
11. J.R. Faudree, R.J. Faudree, J.R. Schmidt, *A Survey of Minimum Saturated Graphs*, Electronic Journal of Combinatorics, dynamic survey 19.
12. K. Amin, J.R. Faudree, R.J. Gould, *Edge Spectrum of K_4 -Saturated Graphs*, J. Combin. Math. Combin. Comput. 81 (2012), 233-242.
13. J.R. Faudree, R.J. Faudree *Forbidden Subgraphs that Imply 2-Factors with Specified Numbers of Components*, Bull. Inst. Combin. Appl. 64 (2012), 4-20.
14. J.R. Faudree, R.J. Faudree, R.J. Gould, M.S. Jacobson, C. Magnant *Chvatal-Erdos Type Theorems*, Discussiones Mathematicae Graph Theory 30 (2010), no.2, 245-256.
15. J.R. Faudree, R.J.Faudree, R.J. Gould, M.S. Jacobson, *Saturation Numbers for Trees*, Electron. J. Comb. 16 (2009), research paper 91, 19 pp.
16. J.R. Faudree, R.J. Faudree *Hamiltonian Cycles Containing Ordered Linear Forests*, Bull. Inst. Combin. Appl. 55 (2009), 78-104.
17. J.R. Faudree, R.J. Faudree, Z. Ryjacek, *Forbidden Subgraphs that Imply 2-Factors*, Discrete Math. 308 (2008), no. 9, 15711582.
18. J.R. Faudree, R.J. Gould, *A Note on Neighborhood Unions and Independent Cycles*, Ars Combinatoria, 76 (2005) 29-31.

19. J.R. Faudree, R.J. Faudree, R.J. Gould, M. Jacobson, and L. Lesniak, *Variations on Pancyclic Graphs*, J. Combin. Math. Combin Comput. 51 (2004) 33-48.
20. J.R. Faudree, R.J. Gould, F. Pfender, and A. Wolf, *k-Ordered Bipartite Graphs*, Electron. J. Combin., 10 (2003), no. 1, research paper 11, 12 pp. (electronic).
21. J.R. Faudree, R.J. Faudree, *Forbidden Subgraphs that Imply k-Ordered and k-Ordered Hamiltonian*, Discrete Math., 243 (2002), no. 1-3, 91-108.

24. J.R. Faudree, *2-Factors and k-orderability in graphs*, Thesis (Ph.D.) Emory University. 1998. 93pp. ISBN:978-0591-98943-4.

MANUSCRIPTS

1. L. Berman, P. DeOrsey, J. Faudree, T. Pisanski, A. Zitnik, *Chiral Astral Realization of Cyclic 3-Configurations*, (submitted to Discrete & Computational Geometry).
2. J. Faudree *Courage by Experiment, Rescue by Data* (submitted to PRIMUS).
3. L. Berman, G. Chappell, J. Faudree, J. Gimbel, C. Hartman, G. Williams, *Obstacle Numbers of Small Graphs* (in progress).
4. L. Berman, G. Chappell, J. Faudree, J. Gimbel, C. Hartman, G. Williams, *On Graphs with Proper Connection Number 2* (in progress).
5. J. Faudree, R. Gould, M. Jacobson, B. Thomas, *Saturation Number and Spectrum of Brooms*, (in progress).
6. L. Berman, J. Faudree, G. Williams, S. Wilson, *Isomorphism Classes of Astral 4-Configurations*, (manuscript).
7. J. Faudree, M. Jacobson, B. Thomas, *tP_k -Saturated Graphs*, (in progress).
8. E. Burr, J. Faudree, *An Alternative Measure of Graph Saturation*, (in progress).

Recent Research Presentations

- *Saturation of Brooms*, AMS Fall Western Sectional Meeting, Special Session on Recent Advances in Structural and Extremal Graph Theory, October 2016. (invited talk)
- *From Dominating Paths to Saturation Spectrum: Some Recent Results with Ron*, Atlanta Lecture Series in Combinatorics and Graph Theory XVII, May 2016. (invited talk)
- *Results and Problems on Saturation Numbers for Linear Forests*, AMS Fall Southeastern Section Meeting, Special Session on Extremal Graph Theory, October 2015.
- *Uniquely Tree-Saturated Graphs*, Forty-sixth Southeastern International Conference on Combinatorics, Graph Theory, and Computing, March 2015 (contributed talk)

Instructional Activities

Calculus Coordinator, Department of Mathematics and Statistics, 2017-2018, 2019-2020.

SEMINAL Fullerton Mini-meeting (on incorporating active learning in the classroom), March 2019, California State University Fullerton.

University of Alaska Statewide Entry-wide/Developmental Math Workshop, May 2019, University of Alaska Anchorage.

MAA Conference on Precalculus to Calculus: Insights & Innovations, June 16-20, 2016, University Saint Thomas, St. Paul MN.

This was both a conference and workshop discussing recent scholarship concerning student success in Precalculus through Calculus courses at colleges and universities in the United States. In addition to detailed examination of recent research from the MAA study of Calculus programs, participating institutions shared detailed course models, logistics of support programs, and institutional data.

Math Bridge Program Co-Director (with L. Bowman) 2011-2014, 2015-2016

This is a year-round program designed to provide extra support for students in UAF math courses with traditionally high failure rates. It includes a pre-semester preparatory program and auxiliary tutorials during the semester.

Major Advisor of Graduate Students

- Erika Burr, M.S. Mathematics, Project: Graph Saturation, graduated Summer 2017
- Larry Huff, M.S. Mathematics, Project: The Eudoxus Reals, graduated Spring 2009
- James Lawless, M.S. Mathematics, Project: An Overview of Distinguishing Colorings, graduated Spring 2008
- Amy Barnsley, M.A.T Mathematics, graduated Spring 2008

Recent Courses Taught

Because our department is small, professors teach a variety of courses from introductory, precalculus courses to graduate courses.

- Support Courses: Pre-semester Prep for Calculus and Precalculus, Semester-long Workshops for Calculus and Precalculus
- Introductory & Service Courses: Precalculus, Calculus I, II, III, Introduction to Proofs, Discrete Mathematics, Linear Algebra, Differential Equations
- Advanced Undergraduate Courses: Combinatorics, Number Theory, Probability, History of Mathematics, Real Analysis, Abstract Algebra, Senior Seminar (Graphs and Matrices, Graph Theory)
- Graduate Courses: Teaching Seminar, Graph Theory, Algebra, Graph Theory Seminar

Professional Service

PUBLIC

Instructor for Osher Lifelong Learning Institute (OLLI)

(Spring 2017, Spring 2018) I taught a course called *History of Math for Everyone*.

Math Content Leadership Team Member (for the Fairbanks North Star Borough School District)

(2012-2014) This committee was tasked with approving new mathematics standards for K-12 classes in the District, aiding implementation of these standards, and choosing materials aligned to the new standards.

MATHCOUNTS Competition

MATHCOUNTS is a national program that provides students the opportunity engage in mathematical topics that are different than the standard curriculum and to compete a variety of contests against and alongside their peers. It is open to all sixth-, seventh- and eighth-grade students.

Judge, Grader, and Proctor; Fairbanks North Star Borough-wide Math Counts Competition (2000-2016t)
Math Counts Lead Coach (University Park Elementary School) 2012-2014

A variety of K-12 outreach programs such as:

Science Fair Judge, Ryan Middle School

Teaching Alaskans Science Knowledge (TASK) mentor (2006-2008). This program supported teams of three (one faculty member, one graduate student, one elementary school teacher) working to improve science education in K-6 classrooms.

Alaska Summer Research Academy (ASRA), mentor teacher (2008). ASRA brings high school students to the UAF campus for a two-week intensive course on a select topic.

UNIVERSITY

At the departmental level, I have experience working on: curriculum development, program assessment, math placement, hiring, directing the math tutoring lab, coordinating teaching assistants, acting as assistant chair, advising, and as the faculty sponsor of the math club and modeling contest.

At the university level, I have experience as an advisor in our Academic Advising Center, an advisor for Student Support Services, university-wide assessment of core baccalaureate curriculum, and committees focussed on student success.

TO THE PROFESSION

I regularly referee research articles for a number of journals such as: Discrete Mathematics, Graphs and Combinatorics, Journal of Combinatorial Mathematics and Combinatorial Computing, Utilitas Math., and Math Reviews.

I have experience as a panelist for the National Science Foundation and mentoring faculty at a variety of levels.
